

Team Name: Dev Team

Report Number: 10

Reporting Week: Week of March 20th

Summary of work completed in prior week:

This week we were all away for break so we did not get as much work done. Two of us continued learning more Python for the django framework while the other two worked on stylizing the front end.

Summary of work planned for next week:

Next week we need to put in a lot of work on the backend. We have been doing a lot of trying to learn the skills we are going to need for this project but we have not started programming much of the backend. By next week we should have our site semi-functional.

Open issues and action plan to resolve them: N/A
